---

## EDUCATION

Bachelor of Science in Computer Science & Psychology (BSc)  
University of Victoria, Victoria BC

Sep 2023 - Present

---

## TECHNICAL SKILLS

- Programming: Python, Java, C
  - Web Development: HTML, CSS, JavaScript, Tailwind CSS, React
  - Operating Systems: Unix / Linux (Bash), Windows, Mac OS
  - Productivity & Collaboration: MS Office (Word, Excel, PPT, Outlook), Google Suite (Docs, Sheets, Gmail), Zoom, Teams
  - Tools & Platforms: Visual Studio / VS Code, Git, GitHub, GitLab
- 

## PROJECTS

**DanLand Interactive Map Game | Web Project (React, Tailwind CSS, Vite, Vercel)** Apr 2025 - Present

- Collaborated with a teammate to develop an interactive map-based web game where players select a Pokémon avatar and navigate between predefined points
- Implemented API to dynamically retrieve and render Pokémon character data, enhancing gameplay realism
- Crafted a responsive interface with smooth avatar movement, clean UI structure, and optimized mobile performance
- Employed Git and Github for branching, merging, and live updates while collaborating on feature development with a teammate
- Deployed the project on Vercel for continuous hosting and seamless integration with the Github repository
- Link: <https://danland.vercel.app>

**Client Landing Page | Freelance Web Project (React, Tailwind CSS, Vite, Vercel)** Apr 2025 - Present

- Built core sections of a responsive landing page, including the navigation bar, hero section, services, about, reviews, and contact
- Applied reusable React components and utility-first styling with Tailwind CSS for maintainability and design consistency
- Translated client feedback into iterative layout and UI improvements during the development process
- Concentrated on accessibility, performance optimization, and mobile-first responsiveness across sections completed so far
- Adopted Git for version control and project tracking in preparation for final deployment upon completion
- Link: <https://www.olhavityuk.com>

**VikeEats | Web Development Project (React, Tailwind CSS)** Jan 2025 - Present

- Contributed to the frontend of a web application showcasing an interactive campus cafeteria map using React
- Designed a responsive "Contact Us" page with a clean layout, accessibility features, and full mobile compatibility using Tailwind CSS
- Used Git and GitHub for version control in a collaborative development environment
- Collaborated with a team in an Agile environment, improving communication and version control practices

**Web Portfolio | Personal Website Project (React, Tailwind CSS, Vite, Vercel)** Jan 2025 - Mar 2025

- Developed a fully responsive personal portfolio using React and Tailwind CSS to showcase projects, work experience and contact information
- Created reusable components and smooth scroll navigation for a seamless user experience
- Focused on clean UI/UX design, accessibility standards, and mobile-first responsiveness
- Added interactive features such as animated project cards, contact form with validation, and hover effects to enhance user engagement
- Hosted the website using Vercel for fast, reliable and continuous deployment from GitHub
- Link: <https://www.danylohumeniuk.com>

**SENG 265 – Software Development Methods | Course Project (Python, C, Bash)**

Jan 2025 - Apr 2025

- Programmed and tested modular methods/functions in both Python and C
  - Emphasized code clarity, maintainability, and real-world development practices through structured iteration and testing
  - Wrote Bash scripts to automate file processing, manage build tasks, and interact with Unix/Linux environments
  - Applied Unix/Linux concepts and shell scripting to automate tasks and process files
  - Practiced Git/GitLab workflows including branching, merging, and issue tracking in a collaborative setting
- 

## PROFESSIONAL EXPERIENCE

Digital Editor & Sales Associate | Artina's Jewellery, Victoria, BC

May 2022 - Present

- Polished product images using Photoshop, increasing visual appeal and online engagement
  - Managed website updates and product listings via Shopify, ensuring accuracy and efficiency
  - Gained hands-on experience with Shopify's Liquid templating language by introducing custom features such as a gift wrap checkbox at checkout and an input field for ring sizes, which improved user experience and order customization
- 

## VOLUNTEER EXPERIENCE

Secretary | Ukrainian Club, University of Victoria

Sep 2023 - Present

- Coordinated monthly events and fundraising efforts to support displaced Ukrainians in Canada
  - Kept track of detailed meeting minutes to ensure transparency and keep members aligned on goals and tasks
-
